

EXHIBIT 1

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : HEALEY and DIRESTA
U.S. Serial No. : 09/890,116
Confirmation No. : 6037
Filed : November 20, 2001
Examiner : Donna A. Jagoe
Art Unit : 1614
For : ANTI-RESORPTIVE BONE CEMENTS AND ALLOGENEIC,
AUTOGRAPHIC, AND XENOGRAPHIC BONE GRAFTS

Law Offices of Albert Wai-Kit Chan, LLC
World Plaza, Suite 604
141-07 20th Avenue
Whitestone, New York 11357

April 11, 2007

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

DECLARATION UNDER 37 C.F.R. §1.132

1. I, Gene R. Diresta, hereby declare that I am the Pre-Clinical Research Director of the Memorial Sloan Kettering Cancer Center's Orthopaedic Research Laboratory/Orthopaedic Surgery. [In that capacity, over an 8 year period I have personally performed and supervised research activities related to the formulation, *in vitro* and *in vivo* testing of antiresorptive bone cements for use in prosthetic joint replacement and bone reconstruction. To date, that work has been presented in three papers published in peer-reviewed journals and six peer-reviewed Orthopaedic meeting abstracts. As documented within my CV, my research experience spans a period of over 30 years

Applicant : HEALEY and DIRESTA
Serial No. : 09/890,116
Filed : November 20, 2001
Page : 2

focusing on biomedical and bioengineering disciplines. Further, I am a NYS Professional Chemical Engineer and American Board of Radiology Certified Medical Nuclear Physicist.

2. I am also an inventor of U.S. Patent Application No. 09/890,116, filed November 20, 2001, and I am familiar with the subject matter of the above-referenced patent application, which is drawn to compositions of anti-resorptive bone cement.
3. In a non-final Office Action mailed February 21, 2006, the Examiner rejected claims 77-117 and 122-125 under 35 U.S.C. §102(b) as anticipated by or, in the alternative, under 35 U.S.C. §103(a) as being obvious over WO 96/39107 (Merck Co.) and Sabokbar et al. (Ann. Rheum. Dis. 57:618 (1998)). In a Final Office Action mailed March 9, 2007, the Examiner rejected claims 77-115, 117, and 122-125 under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as being unpatentable over WO 96/39107 (Merck Co.) and Sabokbar et al. (Ann. Rheum. Dis. 57:618 (1998)), and further in view of Remington's Pharmaceutical Sciences, 15th Edition, 1975, pages 1569-1570.
4. I hereby submit that Sabokbar et al. and Merck Co. do not teach or suggest a bone cement composition wherein an anti-resorptive agent is present in an amount that does not compromise the bone cement's chemical or mechanical properties as claimed herein. As shown in Figure 1 presented herein, the bone cement composition of the present invention (designated as MSKCC) exhibits the same mechanical strength as compared to

Applicant : HEALEY and DIRESTA
Serial No. : 09/890,116
Filed : November 20, 2001
Page : 3

bone cement without any addition of anti-resorptive agent (designated as Drug Free SIMPLEX™). In contrast, the composition of Merck Co. formulated according to WO 96/39107 (designated as MERCK) has significantly decreased mechanical strength as compared to bone cement that does not contain anti-resorptive agent (comparing MERCK vs Drug Free SIMPLEX™). Hence, the addition of anti-resorptive agent according to WO 96/39107 (Merck Co.) actually compromises the performance of the bone cement.

5. I hereby declare that all statements made of my own knowledge are true and that all statements made on information and belief are believed to be true. I acknowledge that making willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. 1001), and may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,

April 11, 2007

Dr. Gene R. DiResta

Date

Figure 1

Name: Gene R. DiResta, Ph.D., P.E.

Date of Birth: Jan. 13, 1948

Place of Birth: Yonkers, New York

Nationality: Italian-American

Office Address: Rockefeller Labs 409

Tel.# 212-639-7405

E-mail: direstag@mskcc.org

Fax# 212-794-4015

Home Address: 8 Hays Hill Road
Pleasantville, NY 10570-1717

Tel.# 914-769-4820

Licensed Professional Engineer: Chemical Year: 1991 Place of Issue: NY

1970 to 1977: Biochemical Engineer

Scientific and Medical Societies:

Society of Professional Engineers
Society of Nuclear Medicine

Grant Awards:

1. Musculoskeletal Transplant Foundation Grant - Jan 2006 -
"Bisphosphonates and Dye Impregnation of Large Structural Allografts" -
Co-Principal Investigator
2. Research Project Award -BioCrystal, Ltd April 2002 - "Development of a
High Pressure 2D Cell Culture Adapter"- Principal Investigator
3. OREF Grant - July 2000 "Characterization of Antiresorption Drug-PMMA
Cements" - Principal Investigator
4. Research Project Award - Stryker-Howmedica Osteonics October 1999.
"Evaluation of An Accelerated Loosening Model using a canine Cemented
Hip. Co-Principal Investigator & Project Director
5. NIH Grant # 1R01 CA78494-01A1 -July 1999 "Enhanced Therapy Response in
Osteosarcoma using an ALS" - Principal Investigator
6. SBIR Phase 1 Grant: Sept. 1989- "Positron Probe for Corneal Tumor
Bioassay" Co-Principal Investigator (Principal Investigator - RMD, Inc.)
7. MSKCC Institutional American Cancer Society Grant : April 1987-
"Nutritive Blood Flow in Healing Wounds: A Predictive Non-Invasive
Marker of Wound Healing": Co-Principal Investigator
8. MSKCC Institutional American Cancer Society Grant : April 1985-
"Measurement of Liver Parenchymal and Tumor Perfusion using In situ H2
Clearance" : Principal Investigator
9. Consortium Agreement between T.S.I., Inc. and MSKCC : May 1985
"Determination of Calibration Factors for the BPM403 LDV using a
Combination LDV-H2 Clearance Probe": Principal Investigator
10. Corporate Philanthropic Donation to pursue research on flow measuring
device at CUMC: 1981

IV. Patents:

Granted

1. "Apparatus for Performing Tissue Perfusion Measurements"
Issued: May 1, 1984 Number: 4,445,515
2. "Process and Device To Reduce Interstitial Fluid Pressure In Tissue"
Issued: Jan. 16, 1996 Number: 5,484,399
3. "ALS - Electroporation Drug Delivery Process and Device"
Issued: April 15, 2003 Number: 6,547,777

Pending:

1. "Anti-resorption Agent-PMMA Bone Cement" – US Patent Pending / Issued in Australia Jan. 6, 2005 Number: 776555; (Submitted Nov. 20, 2001)
2. "Apparatus for Growing Cells under Variable Hydrostatic Pressure" -
Pending Initial submission: March 2002 / Complete submission: March 2003

V. Other Publications/Presentations

Interview:

"Software aids fight against cancer" – Design News – June 9, 1997

"ChEs Target Cancerous Cells in Advanced Drug Delivery" by Claudia M. Caruana, Associate Editor: Chemical Engineering Progress, vol. 91, no.11 November 1995, p13-20

Ph.D. Doctoral Thesis - Bioengineering - June 1982

"The Measurement of Tissue Perfusion using a H₂-Clamp Technique"
